I. PURPOSE: This policy describes procedures for release of records (other than the release of medical records and protected health information pursuant to a request from an Individual in accordance with the HIPAA Rules) and provides a schedule of associated charges. Where an HHSC facility or region has more specific policies and procedures governing the release or duplication of a particular type of record that do not conflict with this policy, the more specific shall control.

II. DEFINITIONS:

"Personal Record" – Any item, collection or grouping of information about an individual that is maintained by HHSC. It includes, but is not limited to, the individual's education, financial, medical or employment history, or items that contain or make reference to the individual's name, identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph. For purposes of this policy, an individual's medical records at an HHSC facility are considered a type of "Personal Record."

III. POLICY:

A. Release of Records

1. Medical Records and other Protected Health Information: Specific requirements and procedures pertaining to disclosure of medical records and other protected health information are not contained in this policy, except as to charges for duplication which are set forth in section III.B.1. below. Refer to other HHSC policies on these topics and Hawaii Revised Statutes Section 622-57.
2. Release of Government Records under UIPA: HHSC is subject to the Uniform Information Practices Act ("UIPA"), Hawaii Revised Statutes Chapter 92F, with additional exceptions to disclosure as set forth in HRS Chapter 323F-6. The general rule is that HHSC's documents, records, computer files, pictures, and any recordable information are subject to public scrutiny.
 - a. General exceptions to disclosure include:
 - (1) Where disclosure would frustrate a legitimate government function;
 - (2) Where disclosure would constitute a clearly unwarranted invasion of personal privacy, i.e. the individual's privacy interest outweighs the public interest in disclosure;
 - (3) Applications for credentials or staff privileges, records of peer review proceedings, and medical records;

- (4) Marketing strategies, strategic plans, evaluations, assessments, negotiations, or rates and charges, the disclosure of which would raise the costs of procurement or give a manifestly unfair advantage to any competitor or to any person or entity seeking to do business or proposing to enter into an agreement with HHSC or a facility; and
 - (5) Where disclosure is prohibited by law.
- b. Where there is a question as to disclosure of a government record under UIPA, the facility or corporate communications and public affairs officer should be consulted, who may decide to consult with legal counsel. Where there is a claim of confidentiality, the issue may be submitted to the Office of Information Practices for resolution, in accordance with Chapter 92F.
 - c. All UIPA requests seeking information considered potentially sensitive to disclosure by the records custodian (even where it is clear that disclosure is required) should be coordinated with the communications and public affairs officer.
 - d. Prompt response to requests for disclosure of government records is required by HRS Chapter 92F. Please review HRS Chapter 92F-23 and Hawaii Administrative Rules, Title 2, subtitle 7, chapter 71, for further instructions on proper processing.
