5. Nature of the Emergency KVMH is understaffed by the following key positions: one (1) Regional Facilities Director, one (1) CT Technician, one (1) Ultrasonographer/Echo Technician and one (1) Physical therapist III. These positions have been open for an extended period of time, dating back to the Summer of 2006. KVMH is currently using Agencies to fill the CT Technician and the Ultrasonographer/Echo Technician positions. They have been unable to fill the other two (2) positions. However, the Agencies may not be able to continue to provide these individuals to fill these positions and have stated that they do not feel confident that they will be able to provide individuals to fill the other positions. . The Agencies are NOT optimistic that they will be able to locate anyone and/or fill any or all of these positions in the near future. There are a limited number(if any) of qualified technical individuals available in the area and are employed elsewhere. Continuity of care is of prime concern. Patient care will suffer if these positions remain open. In some cases it may become necessary for Radiology to cancel patients in the future if these openings continue. All "NORMAL" recruitment methods have been tried, but to no avail. In the case of the Regional Facilities Director, this is an executive position and there has been no response from any of the recruitment methods tried to date. It is imperative that this position be filled as soon as possible.
