

**HAWAII HEALTH SYSTEMS CORPORATION  
NOTICE OF AMENDMENT TO EXEMPTION FROM CHAPTER 103D, HRS, CONTRACT**

1. TO: Chief Procurement Officer  
2. FROM: Kay Revita/Christine Asato, Information Systems  
Department/Division/Agency

3. Name of Contractor: Cerner Healthcare 4. P.E. Reference No. EX-036 (amends EX14-003)

5. Description of goods, services, or construction:  
MobileMD is a subscription based service that allows HHSC to provide health information exchange ("HIE") and to electronically engage our patients through the transmission of data to our web-based patient portal. Rapid ADT Provisioning (RAP), the proposed enhancement, is an optional tool offered by Mobile MD that automates the patient provisioning process by linking specific data captured at registration in Soarian Financials to the patient portal account maintained in the Mobile MD.

6. Scope of work for the contract is revised as follows:  
The EMR contract scope will be amended to add Rapid ADT Provisioning to increase the HHSC ability to meet Meaningful Use in 2015. The Patient Electronic Access objective (aka patient portal) is a 50% measure requiring HHSC to provision all eligible patients within 36 hours after discharge.

Original Contract Price: \$2,500,000 Amended Contract Price: \$2,515,204

7. Reason: This/These amendment(s) are necessary because:  
HHSC IT strongly recommends implementation of RAP in order to increase the HHSC ability to meet Meaningful Use (MU) in 2015. The Patient Electronic Access objective (aka patient portal) of MU is a 50% measure requiring HHSC to provision all eligible patients within 36 hours after discharge. The benefits to implementing RAP are: a) significant reduction of HHSC resources required to provision patients in the portal, b) elimination of the need for all patients to have a valid email address in order to access the portal, c) streamlines the provisioning process by eliminating the need for the patient to receive both welcome email and validation code, and e) reduces duplicate MRN accounts in the portal.
