In February, 2011 HHSC entered into an Agreement with OneMedNet exempt from public bidding specified in HRS 103D & 103F pursuant to Section HRS 321-22.5. Funding for the then pilot project was made available to HHSC through the State Department of Health, Trauma System Special Fund. As part of the project, OneMedNet provided each participating facility one pre-configured OneMedNet (a.k.a. Beam) Gateway appliance, coordinated with each site's Radiologist to implement services, and provided a subscription of unlimited digital image transmission for physicians enabling review would be able to study radiology digital images from remote locations and various hospitals across Hawaii. The HHSC facilities, all of whom participated in the project, now desire to continue to utilize the fully implemented Hawaii standardized solution to maintain uninterrupted digital image transmission across hospitals across the state of Hawaii. Entering into a new procurement by competitive means is neither practical nor advantageous to the State and HHSC, for the reasons noted above.
