| Full Performance | Pay Grade | HE-08 | Job Code | 6.775 |

Function and Location

This position works in a nursing unit of a hospital, clinic or long-term care facility and is responsible for independently performing the full range of practical nursing care and related technical work. The position may work on rotating shifts and in a variety of care units (e.g., medical, surgical, OB/GYN, ICU/CCU, ER, SNF, ICF, etc.).

Key Duties and Responsibilities

1. Prepare and administer prescribed selected medications (e.g., oral, rectal, inhalation, subcutaneous, intramuscular, prepared intravenous drips, ear, nose, eye, topical, and vaginal) and record time and amount administered on patient's charts; observe patients for reactions to medication; document observations and report changes to supervisor.
2. Add prepared bottles of intravenous fluid, monitor the rate of flow, keep flow at the prescribed rate, and discontinue the fluid, as directed.
3. Administer treatments, including tube feedings/gavage feedings or other types of feedings; oxygen; respiratory treatments; tracheostomy care and suctioning, etc., as ordered by the physician.
4. Perform procedures such as nasogastric tube insertions, aspirations, irrigations and removal of nasogastric tube.
5. Apply packs (cold, hot, wet, dry); give enemas (cleansing, cooling, retention); irrigate (vaginal, colostomy, ear, eye throat); catheterize patients using aseptic techniques; care for patients with indwelling urinary catheters; clean wounds and apply various dressings and compresses.
6. Give immunizations.
7. Perform patient care duties and/or treatment based on specific patient needs, including but not limited to age, medical condition, and/or developmental status.
8. Perform and/or assist physicians with various diagnostic tests and treatment procedures.

Job Description

Licensed Practical Nurse

(Job Description, Class Specification & Minimum Qualification Requirements)

9. Observe patient's appearance and behavior, signs and symptoms, and monitor vital signs (temperature, blood pressure, pulse, and respiration) with special emphasis on patients whose conditions are unstable, and report observations to supervisors. Document findings and report significant changes to supervisor based on knowledge of patients' specific condition.
10. Document patient assessments and interventions, and patient outcomes in the patient's chart in accordance with hospital policy.
11. Assist in the formulation, re-evaluation and adjustment of nursing care plans to meet physical, mental, emotional and spiritual needs of each patient.
12. Adhere to safety/infection control policies and procedures. Report unsafe equipment.
13. Maintain a clean, well-stocked, safe environment for patients and staff. Keep patient care and utility areas neat and clean.
14. Communicate and interact with patients and families in a positive and courteous manner.
15. Use the principles of growth and development to assess each patient's age-specific needs and provide age-specific treatment and care.
16. Maintain the strictest confidentiality of all facility and facility-related employee information.
17. May serve as charge nurse on the evening and night shift under the guidance of an RPN.

Other Duties

In addition to the key duties and responsibilities, this position may be assigned to:

Participate in the orientation and continuous teaching program for patients and their families, including methods to promote health and recovery, such as self-care, proper eating habits, body mechanics, rest, isolation precautions and rehabilitative measures; bathe and feed patients and help them into and out of bed/wheelchair, etc.; prepare patient for treatment and/or surgery; transport patients to and from Admissions Office, Surgery, x-ray, etc.; measure and record intake and output; collect specimens (e.g., sputum, urine, feces); apply ice bags and hot water bottles
