

HAWAII HEALTH SYSTEMS CORPORATION

Job Description

Pharmacy Technician

(Job Description, Class Specification & Minimum Qualification Requirements)

Entry	Pay Grade	HE-04	Job Code	6.796
Full Performance	Pay Grade	HE-06	Job Code	6.797

Function and Location

This position works in the pharmacy unit of a hospital, clinic or long term care facility and is responsible for assisting a Pharmacist in providing pharmaceutical services in accordance with established procedures and methods. The position may be required to work on shifts, including evenings, and weekends and holidays.

Key Duties and Responsibilities

1. Assist the pharmacist in preparing physician orders by pulling labels generated by the pharmacist and filling with the appropriate medication. This process may include the preparing and sending of a unit dosed oral medication, a reconstituted medication, a topical medication, or an I.V. solution, as specified by the label.
2. Prepare intravenous, epidural, or intrathecal solutions (large volume solutions, IVPB, syringes, TPNs, etc.) using sterile technique, according to the Pharmacy Sterile Compounding SOP and current sterile compounding regulations.
3. Refer all completed drug orders to the pharmacist for checking before dispensing.
4. Adhere to safety/infection control policies and procedures. Report any unsafe equipment or practices.
5. Answer telephone calls and triage to appropriate person according to departmental guidelines.
6. Maintain a clean, well-stocked, and safe environment for patients and staff.
7. Pre-pack medications as unit dosed items for administration when necessary or when requested by pharmacist.
8. Remove outdated medications from stock and automated dispensing machines.

Job Description

Pharmacy Technician

(Job Description, Class Specification & Minimum Qualification Requirements)

9. Perform daily stocking and filling of pharmacy shelves, automated dispensing machines throughout the hospital, as assigned by pharmacist.
10. Maintain crash cart trays and emergency medication boxes.
11. Deliver completed drug orders to the appropriate floors or authorized individual caring for the patient.
12. Fulfill any special request from the pharmacist to service a particular need within the pharmacy or hospital, or in any emergent patient-specific situation.
13. Adhere to scheduled breaks and lunch times as assigned by pharmacist.
14. Complete annual and one-time competency assessments as determined by departmental policy.
15. Maintain the strictest confidentiality of all patient and facility-related employee information.
16. Employ the use of proper Personal Protective Equipment (PPE) when handling hazardous materials.

Other Duties

In addition to the key duties and responsibilities, this position may be assigned to:

Maintain temperature logs of refrigerators within the Pharmacy; maintain I.V. inventory and supplies; perform daily narcotic pulls; unpack, check, and stock all incoming medications and supplies in adherence with requirements of the Drug Supply Chain Security Act (D.S.C.S.A.); assist nursing staff in troubleshooting Pyxis related problems when requested; perform special projects as assigned by the Director or designee and perform other related duties as assigned.

Knowledge and Abilities used in Performing Key Duties at the Full Performance Level

Demonstrated proficiency in the application of all of the knowledge and abilities, specified below for the Full Performance level, in providing the full range of services, to

HAWAII HEALTH SYSTEMS CORPORATION

Job Description

Pharmacy Technician

(Job Description, Class Specification & Minimum Qualification Requirements)

the patients of the work site, independently. Knowledge of the policies, procedures and work rules of the work site.

Supervision Provided By

A Pharmacist provides supervision to the position.

Instructions Provided: Entry level employees are provided specific and detailed instructions; full performance employees are provided general instructions, and specific instructions in new and unusual situations.

Assistance Provided: Entry level employees are provided close guidance in performing tasks; full performance employees perform work independently with a Pharmacist being available to provide specific guidance and assistance in handling new and unusual situations.

Review of Work: For each prescription filled, work is reviewed by the Pharmacist to ensure proper filling.

Prerequisite Qualifications Required for the Entry Level

Education: None required. High school diploma or G.E.D. preferred.

Experience: One year of work experience in a pharmacy setting (e.g., community pharmacy, hospitals, other medical institutions) assisting a Pharmacist in providing pharmaceutical services in accordance with established procedures and methods.

Knowledge and Abilities: Basic knowledge of pharmaceutical nomenclature; pharmaceutical system of weights and measures (e.g., milligrams, milliliters, cubic centimeters, etc.); commonly used pharmaceutical preparations used in the treatment of illnesses; dosage requirements; storage requirements; routes of drug administration; and practices and procedures employed in filling pharmacy prescriptions; and the ability to perform basic arithmetic computations (addition, subtraction, multiplication, division); and transcribe accurate medication profiles.

Prerequisite Qualifications Required for the Full Performance Level

In addition to the qualifications required at the entry level:

Experience: One year of work experience assisting a licensed pharmacist in a hospital which required receiving and reading prescription and medication orders from
